WASHINGTON, Sept. 2.

WARANTS FOR THE ARREST OF ROLLINS.

Warrants were issued to-day for the arrest of Commissioner Rollins and his deputy, Harland, for whisky frauds. They dined at a hotel to-day, a very unusual and mysterious proceeding, and a stranger, very much like a detective, accompanied them. Solicitor Binckley is after others in high places who have been involved in similar transactions. There is great excitement here in regard to these new developments.

ROLLINS REMOVED.

Commissioner Rollins' office was crowded to-day with parties anxious to learn what course he intended to take concerning warrants issued for his arrest by United States Commissioner Galtman in New York. Rollins, to-day notified District Attorney Conroy that he should not respond to the summons, as the charges were utterly absurd, and would be so proved on investigation. Neither Rollins nor Harland paid any attention to the process of the commissioners in New York, both being on duty as usual.

COLFAX REPLIED.

A letter has been received here from Speaker Colfax at Denver, saying he would leave there on the 1st, and reach Washington on the 15th, to be present in case Congress reassembles on the 21st.

SO FUNERAL OF HIS.

Good authority states that the President to-day denied emphatically that he had ordered Binckley to New York to hunt up evidence against Rollins. On the contrary, he professes to be displeased at the manner in which Binckley managed the case. The affidavit made by a party in New York, upon which the warrant for Rollins' arrest was based, was this morning presented to the President, and he pronounced it utterly absurd. He dispatched his private Secretary, Warden, to inform Rollins that he had no part in the agency in the matter, and repudiated it.

RADICAL JOYS AND SORROWS.

The radical press here is jubilant over the success of their party in Vermont, but the laugh is upon the other side of their face when the new developments relative to the exchange of prisoners is mentioned, and by the way, are very damaging to the federal officers having that matter in charge.

INDIAN AFFAIRS.

Intelligence was received at the Indian Office to-day that General Harney has been dismissing a number of Indian agents in the Western country of late. The old fellow seems to have forgotten that the war is over. The Commissioner of Indian Affairs started West to-day.

TENNESSEE.

It is settled beyond all peradventure that the President will protect the people of Tennessee from Brownlow's militia by United States troops. He has issued a number of prominent gentlemen from that State that he has resolved upon that course.

A. J.

The President is very sanguine in regard to the Presidential election, and believes that Seymour and Blair will overwhelm the radical ticket.

MAINE.

Intelligent Maine gentlemen in this city are confident of a considerable Democratic gain in that State. The gain of two members of Congress is conceded.

NEW YORK.

Special Dispatch to the Louisville Journal.

NEW YORK, Sept. 2.

The *Times* says that this election scatters all notions about Democratic gains, dispels all delusion of Republican apathy and dissatisfaction, demonstrates the popularity of Gen. Grant, and shows the power of Republican principles. The *World* is silent. The *World* makes no comments. It is still undecided about its course, but if Maine and California show Republican gains, it will come out for Grant.

The Soraia had their first meeting of the season at Delmonico's yesterday. Jane Swaine was present, and made a speech on the condition of women. Gail Hamilton declined membership, but, in her report, was elected Grand Army to the Society.

Rhines and Verneuil play a match game of billiards to-night for the championship. The cue of Illinois has been held by Verneuil for about a year, and has already been contested twice by Rhines. The match between Dunc and McDevitt, for the championship of America, will certainly come off in Chicago on the 26th instant.

The number of deaths in this city last week were 220.

WISCONSIN.

The World says a Republican victory in Vermont was owing partly to the efforts of the Unionists, who, in their efforts to quench the fire of rebellion, have given up their cause.
